Complaints and Appeals Process

Rights

The rights of pharmaceutical companies, healthcare professionals and members of the general public are recognised, including the right to lodge a complaint and the right to an impartial decision. Where anonymity by a healthcare professional or member of the general public to the pharmaceutical company has been requested, this will be respected. However, anonymous complaints to the Secretariat will not be accepted.

The complaints process is free of charge.

Complainants and the Subject Company have the right to appeal a decision of the Code of Conduct Committee. The appeals process is free of charge for non-industry appellants; however a pharmaceutical company must lodge an appeal bond of \$20,000 when lodging an appeal.

Complaints and appeals will be considered in a transparent, equitable, objective and unbiased manner by the Code of Conduct and Appeals Committees. The complaints handling process will reflect the principles of natural justice and procedural fairness.

Accessibility

The complaints process is readily accessible to pharmaceutical companies, healthcare professionals and members of the general public. An 'Independent Facilitator' is available to assist Non-industry Complainants. Detailed information on the process is included in this document.

Where a complaint falls outside the jurisdiction of Medicines Australia the matter will be referred to the most appropriate alternate body.

Timeframe

The complaints handling process will be responsive and target times for handling complaints are set down in the provisions of the Code of Conduct. The Complainant and Subject Company will be informed of all decisions and provided with an extract of the minutes pertaining to their particular complaint.

Reports

The outcomes of all finalised complaints are published on the Medicines Australia website in quarterly and annual reports.

Complaints and Appeals Process Summary

Lodging a complaint

A Non-industry Complainant (member of the general public, healthcare professional, academic, Therapeutic Goods Administration) may lodge a complaint in relation to the activities of, or materials developed by, the Australian manufacturer/sponsor of a prescription medicine. There is no cost to lodge a complaint with Medicines Australia.

The preferred method of lodging of a non-industry complaint is by submitting the 'Complaints Submission Form for Non-industry Complainants', which is available on the Medicines Australia website: <http://medicinesaustralia.com.au/code-of-conduct/lodging-responding-to-a-code-of-conduct-complaint/>

The form can be lodged electronically, mailed or faxed to Medicines Australia.

If you do not wish to lodge the 'Complaints Submission Form for Non-industry Complainants', a written complaint can be lodged via email, fax or letter.

Anonymous complaints will not be accepted. However, on request of the complainant, the Code Secretariat will withhold your name from the company against whom you are complaining (known as the Subject Company). Medicines Australia will not publish the name of a Non-industry Complainant in any reports on the outcomes of code complaints.

Independent Facilitator

When enquiring about lodging a complaint you may ask for assistance in this process. An 'Independent Facilitator' is available to assist in formulating the complaint and identifying sections of the Code that may be relevant to the complaint. This service (maximum 2 hours) will be provided free of charge to a Non-industry Complainant.

Medicines Australia has three independent facilitators. You will be referred to the person with the expertise most relevant to your complaint. All facilitators have an understanding of the Code of Conduct and the complaints process.

Facilitator expertise:

- Experience in medicines, e-health, privacy national policy and advocacy and on behalf of health consumers and carers.
- Experience in the relationships between consumer health organisations and the pharmaceutical industry; a broad understanding of issues in the public and private health sectors, a sound understanding of the Australian National Medicines Policy and the pharmaceutical industry.
- Experience in medical writing and communication and pharmacology

Do I need to contact the pharmaceutical company before I lodge a complaint?

It is not mandatory for a Non-industry Complainant to contact the pharmaceutical company about whom you are complaining and discuss your concerns, however this is encouraged. The independent facilitator can assist you by contacting the pharmaceutical company on your behalf to discuss the

complaint and seek an explanation. If you are not satisfied with this response the facilitator can assist in formalising the complaint before you send it to Medicines Australia.

What should be submitted?
